## FREE CABIN FILTER INSPECTION

If your car is more than a year old your cabin filter should be checked and replaced IF needed.

The inside of your car is **six times more polluted than the outside air**. Couple that with the fact that people usually spend around 21 hours per week in their cars, and a lot of pollution is being breathed in.

*We'll inspect your cabin air filter at no charge*  
*(on most models it takes about 10 minutes to check)*  
*and if your filter needs replaced we'll give you a 10% discount*
